

Another quality teaching resource CD for Stages 5 & 6 Geography

NEW August 2006

Impacts of Man on the Tasmanian Environment

Developed by Ron and David Keith

Ron is former Head Teacher at James Ruse High, while David has worked with National Parks services and written many books on Australian Flora and Fauna.

This CD contains a wealth of information on the Geography of Tasmania and many of the issues associated with man's use of the Tasmanian environment. It contains

- **Several Powerpoint presentations** which include many photographs, maps, and a range of diagrams, tables and graphs. These can be used for teaching many essential Geography tools in Stages 5/6.
- **Background notes, teaching suggestions and student exercises** based on the powerpoints, but with many hot links to web-based information.

Topics : Geography of Tasmania, Natural Hazards, Environment Study (Freycinet), Community Study (Coles Bay), Misuse of the Environment, Protected Areas.
