

Announcing a new (Feb 2007) teaching resource for Stages 5 Geography

Land and Water Management at Penrith Lakes DVD

DVD is divided into three parts and includes

- Introduction to the Penrith Lakes Scheme (Land Mgt)
 - Water Management (on-site management)
 - Scopes Creek (off-site management)

This DVD was produced by Steve Etheridge from the Penrith Lakes Environmental Centre. Complements the Penrith Lakes Kit produced in 2001 (see website - resources page) but can easily be used as a stand alone Stage 5 resource.

- It includes an interview with the person directly responsible for water management at the Lakes.
- Background to the Lakes Scheme
- The importance and management of water in the Lakes Catchment
- Black line masters for classroom use linked to the DVD.

How to Order

If you are joining WeSSSTA for 2007 just tick the relevant box on the membership form or download order form on website

Non members can download the order form from the website.
Note: non-member price is \$35 plus \$5 postage. Member price is \$15.
